

STANDING RULES: Philanthropy

NIC Position Statement on Philanthropic Events:

The NIC believes each fraternity chapter is a small business whose products should be the development of lifelong friendships, the development of leadership qualities and experience, the achievement of high academic accomplishments, and the development of philanthropic and community service activities. Community service is a pillar of most, if not all, member chapters, and is a great public relations tool for the fraternity community. Community service events also allow members to give back to the campus and the surrounding neighborhood. Planning events that members have no interest in attending or are too cumbersome will diminish the value of the service performed.

Agreement of Participation:

AGREEMENT. In order to increase community and campus involvement in philanthropic events without losing participation of IFC chapters and NPHC chapters will equally participate either by donation or the sponsoring of a team for each philanthropy event of the above chapters where the chapters' events are in compliance with the council's governing documents.

Each council is responsible for the governance of their respective chapters' adherence to the rules. When the council fails to ensure chapter compliance with their rules, the agreement is considered void for that individual chapter.

Philanthropy Rules:

I. Event Regulations

1. Alcohol shall not be present at any philanthropic event. Consumption of alcohol at a philanthropic event will result in an immediate dismissal of organization and a judicial infraction to the council.
2. IFC will only participate in a maximum of two events per month that have more than one day of competition. There is no limit per month on participation for events with only one day of competition.
3. There must be at least fourteen days in between any performance competition that involves CPC participation. This includes Homecoming and Fraternity and Sorority Life Activities or other University sponsored performance competition events identified during the annual calendar planning meeting.
4. Only one sign per chapter should be put on a fraternity or sorority house during their philanthropy event. It is suggested that signs have the opportunity to be donated to the benefitting organization as decorations and feature Southern Miss Fraternity and Sorority Life in a positive manner. It is the responsibility of the hosting chapter to remove all signage.
5. Chapters are expected to be respectful of scheduled NPHC and CPC events, which will be communicated at calendar planning meetings.
6. Chapter may not have a philanthropy event within the first two academic weeks of Fall Semester due to Structured Fall Recruitment.

II. Distribution of points:

1. Attendance points can be factored into points for the overall winner only by percentage for competitive events. This includes profit shares.
